

**SURGE PROTECT YOUR WHOLE HOME  
RIGHT FROM THE BEGINNING.**

**Innovative Energy Solutions & Services, Inc.**

*"The Power of Conservation"*

Benefits of IES

Residential POWERHOUSE

SURGE

PROTECTOR

INCREASED EQUIPMENT LIFE & REDUCED REPLACEMENT COSTS

Motors, components, and electronic devices are able to operate at optimum without the common voltage spikes and voltage drops.

As a result of the all over home surge protection, costs associated with replacement of motors and electronic devices are reduced.

# Why Surge Protect?

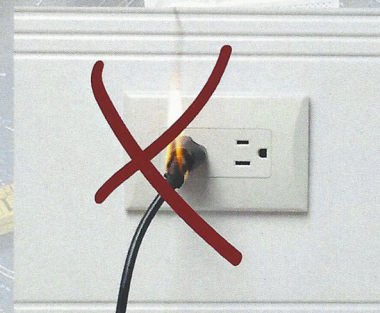

Whole-house surge protection allows only the electricity your home needs and stops any unruly over-voltages from entering your utility, protecting your devices and appliances from surges that may occur inside of the house.

**THE POWERHOUSE SP** installed in new construction or retro fitted into an existing home can be modified to individual power needs providing **PEACE OF MIND!**

Eliminate Power Surge Plug Ins

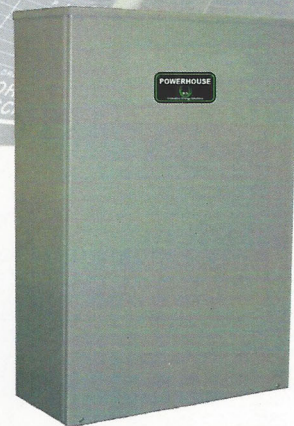

Eliminate Costly Replacements

- cULus approved.
- Balances voltage across all phases
- Easy, quick installation
- 5 year limited warranty\*
- Increased equipment lifespan
- Decreased maintenance costs
- Whole House Surge Protection

*(must be installed by licensed electrician)*

Innovative Energy Solutions & Services, Inc. developed the **POWERHOUSE SP** through years of research and development with a proven track record of whole house surge protection and increased equipment life. It boosts, balances and stabilizes voltage across phases. By boosting, stabilizing, and balancing power, the equipment operates at peak design with decreased strain.
